

C-A35M/IRRW

3.5mm Male to Wide-Hz-Range IR Receiver
Cable

C-A35M/IRRW is a professional IR receiver cable designed for devices that have a 3.5mm external IR receiver port. C-A35M/IRRW enables sending wide-range IR signals to the device for controlling the device or for routing the IR signal over an extension line

TECHNICAL SPECIFICATIONS

	IR receiver sensor
	IR 3.5mm male connector
	20-60kHz
	Gray
Environmental Conditions	Operating Temperature: 0° to +50°C (32° to 122°F)
	Storage Temperature: -30° to +70°C (-22° to 158°F)
	Operating Humidity: 5% to 85%, RHL non-condensing
