

PPL 2500 Projector lift system

Article number (SKU) Colour 7025000 Black

The PPL 2500 projector lift system is the perfect solution for the integration of a large projector at a ceiling for example in an auditorium or conference hall. The lift is equipped with a heavy-duty but silent motor which assures a fast and stable up-down movement of the projector. Furthermore, the motor is provided with an RF remote controller and offers the possibility to set three motor limit stops: an upper, intermediate and a down stop. The intermediate stop can be set at the desired height for projection mode, whereas the down one can be adjusted up to 500 cm stroke and can be used as a service mode position. The maximum weight capacity of the projector lift is 70 kg.

A safety device is built-in in order to offer maximum security in case of an unlikely failure of the mechanism. The movement of the projector mounting frame is controlled by two strong steel cables.

PPL 2500 Projector lift system

Specifications

Product type number	PPL 2500
Article number (SKU)	7025000
Colour	Black
EAN single box	8712285338465
Width	790
Depth	890
TÜV certified	Yes
Guarantee	2 years
Guarantee electrical parts	2 years
Max. weight load (kg)	70
Average power consumption	265
(W)	
Certifications	CE
Max. distance to ceiling (mm)	5705
Min. distance to ceiling (mm)	705
Voltage	230 V, 50 Hz
