

TS-PEU

Universal Socket Power Extension for
Modular TBUS

Kramer's TS-PEU is a power extension unit that includes six universal power sockets: one on the surface of the unit and five hidden neatly under the table. TS-PEU fits into TBUS inner frame modules with dual power socket openings.

To use the hidden sockets, simply pull TS-PEU out of the TBUS using the handles and lay it on the table. When not in use, carefully slide TS-PEU back into the TBUS

TECHNICAL SPECIFICATIONS

Ports:	6 power universal connectors
Power Source (AC power limits):	Universal – 100–240V AC, 50/60Hz, 5A, maximum 5A per power outlet
