

iSpeaker DAP10

Dante Active full-range speakers, 10"

Introduction

The iSpeaker DAP10 adopts the world's leading Dante protocol audio transmission technology. Products using Class D amplifier technology, through a standard Cat5e cable can achieve power supply and transmission at the same time, without additional power amplification equipment, to achieve sound without compression, loss, or delay.

Spec

Model	iSpeaker DAP10
Name	10" Dante Active Full-range Speaker
Unit Configuration	10" (250mm) ferrite bass, 1.5" (34mm) ferrite tweeter driver
Frequency response (± 10 dB)	50Hz-20kHz
Power rating (AES)	120W
Sensitivity (1W/1m)	90dB
Maximum Sound Pressure Level (SPL)	118dB
Standard impedance	8 Ω

Coverage angle (H x V)	80° x 80°
Dante digital network interface	2 x RJ45
Analog interface	1 x XLR balanced input, 1 x XLR balanced output
Active amplifier module	200W
Volume knob control	Yes
Centre control interface	RS232
Dimensions (W x H x D)	308 x 486 x 290 mm
Product net weight (kg)	12.2kg
